- **ATM**
- **VPN services (Virtual Private Networks)**
- **Wireless data**
- **Private lines (domestic and international)**
- **Dedicated IP transit**
- **Integrated voice and data circuits**
- **Bandwidth ranging from DS-1/T-1 (1.544Mbps) up to OC-48 (2.488Gbps)**

24/7 Premier Support

Your business does not end at 5 o'clock, and neither does ours. All of our Tier 1 underlying carriers have state of the art network operations control centers that are monitored and tested 24 hours a day, 7 days a week, 365 days a year. In addition, our own Premier Support is available 24/7 for our high volume business customers.

A Higher Level of Service

Many of our customers find that we are able to offer them a higher level of service than they have been previously accustomed to. As a large volume wholesale customer and premier reseller of telecommunications services, we have more leverage than an individual customer might with our underlying carriers. Therefore, we are usually able to get problems and issues resolved faster and more efficiently than others. In addition, our Premier Account Support staff are highly trained and experienced telecommunications professionals who are there to ensure your needs are met all day, every day.

For Mission Critical Applications - Network Diversity With A Single Point of Contact (and only One Bill!)

As a premier reseller of telecommunications services, Airespring is in a unique position to offer carrier diversity to our customers, while still providing a single point of contact for service, as well as unified billing on one bill. Many of our enterprise customers require multi network diversity and redundancy for mission critical applications. As a reseller, we can offer our customers direct connectivity to up to 3 or more underlying carrier networks for voice and data services, while still offering highly competitive pricing and only one bill and one contract.

WHO IS AIRESPRING?

AIRESPRING CORPORATE OVERVIEW

Overview:

Airespring is a privately held, **100% debt free** diversified full service communications company offering a broad range of innovative services at competitive prices to corporate and residential customers nationwide. Airespring is one of the fastest growing telecommunications companies in the United States and was recently mentioned in such publications as **Business Week** and the **Boston Globe** as one of the leading discount telecom providers in the nation.

Airespring is comprised of the following major business units:

Airespring Business:

Airespring Business provides a complete suite of total end-to-end communication solutions for our corporate and business customers. We are committed to a solutions based approach where we provide a customized set of services to fit the needs of each business customer. These include a wide array of voice and data services.

Airespring Mass Markets & Residential Unit:

The Mass Markets & Residential Group supplies telecommunications services to consumers nationwide. These services include Switched voice long distance (domestic and international), Wireless Data services, Calling Cards and Discount International calling from cell phones.

E-commerce:

Airespring's cutting edge web based customer service and integration allows customers to easily and simply sign up online, review billing and account information online, and access customer service online. Additionally, for those customers who want human interaction, we maintain a fully staffed customer service center. Our focus on quality customer service, competitive rates and high quality call termination make Airespring a growing market leader in consumer telecommunications services.

Airespring Data:

Airespring Data is focused on medium and large corporate customers who need high bandwidth IP and internet services. Utilizing multiple Tier 1 IP backbones offering global IP transport, Airespring is able to offer a complete suite of data services including IP, Frame Relay and Private Data Lines.

Airespring Wireless:

Airespring Wireless provides corporate enterprises with reliable, secure wireless data connections to the internet and corporate intranets. Our complete wireless packages allow corporate employees using wireless devices to connect to corporate email, corporate databases, intranets and the Internet without a wired connection.

AIRESPRING SENIOR MANAGEMENT

AIRESPRING'S HIGHLY EXPERIENCED MANAGEMENT ENSURES SERVICE IS ALWAYS #1

Highly Experienced Team

Airespring boasts a management team composed of telecommunications industry veterans, most of whom have 15+ years experience in the competitive telecommunications business with companies ranging from smaller carriers to some of the world's largest telecom conglomerates. As a family run enterprise, Airespring retains old world values by delivering the highest quality, reliability and service at a competitive price, and ensuring that the customer is always #1.

Avi Lonstein, Chief Executive Officer

As the former President of ADDTEL Communications, Mr. Lonstein was directly responsible for taking ADDTEL from a start-up operation to one the country's most successful nationwide long distance resellers. Under Mr. Lonstein's direction, ADDTEL was recognized as one of the industries most innovative and well-managed companies, and experienced substantial growth during Mr. Lonstein's tenure. Mr. Lonstein is well known in the resale telecommunications industry, and was one of the founding members of the industry's trade association, the Association of Communications Enterprises (ASCENT). Prior to co-founding ADDTEL, Mr. Lonstein held the position of Assistant Controller at Michael Baybak and Company, a corporate public relations firm.

Tony C. Lonstein, Executive Vice President

With over 30 years experience in international trading, Mr. Lonstein was the former co-founder and Chairman of ADDTEL Communications, Mr. Lonstein was responsible for the overall strategic direction for ADDTEL. Mr. Lonstein was involved in extensive negotiations with major carriers, including AT&T and MCI, as well as with major customers, which included such companies as Earthlink Network. Mr. Lonstein's prior experience includes the complex structure of several multinational trading agreements, as well as international import/export and commodities trading.

Daniel Lonstein, Senior Vice President Marketing

In addition to a prior position as the Chief Operating Officer of ADDTEL Communications, Mr. Lonstein has extensive experience in Sales and Marketing functions both inside and outside of the telecommunications industry. Mr. Lonstein has previously held positions at On Target Market Research, Tel-Aviv based USTM Partners, and has consulted for various international telecommunications conglomerates.

Don Greenstein, Vice President Operations

Don Greenstein previously held the Vice President Operations position at ADDTEL Communications, and has extensive experience in telecommunications networks, switching, billing and computer/telephony integration. He has previously held senior management positions at various telecom companies including Equalnet Communications, Coyote Network Systems, Relay Point Networks and Maverick Telecom.

AIRESPRING SENIOR MGMNT CONT'D

AIRESPRING'S HIGHLY EXPERIENCED MANAGEMENT ENSURES SERVICE IS ALWAYS #1

Lanny Eule, Vice President Agent Channel Sales

Mr. Eule has over 30 years experience in international sales and marketing with a focus on the telecommunications industry. Mr. Eule previously headed up Channel Management at ADDTEL Communications, and has worked at senior management positions at various major telecommunications carriers including Telco Communications, Bell Canada, Teleglobe and Telepacific Communications.

David Lonstein, Vice President Administration

Mr. Lonstein previously ran the Customer Service Division at ADDTEL Communications, and has extensive experience in all aspects of the telecommunications industry.
